

Afzal Haq

A full stack web developer with a passion for developing innovative programs that expedite the efficiency and effectiveness of organizational success.

PROJECTS

Easy QR Code

October 2023 - December 2023 (Laravel, Vue, Blade, Bootstrap, and Tailwind CSS)

This website generates QR Codes and Bar Codes for numerous uses like Wi-fi connection, emails, events information, contacts and many more. This website provides the said services based on subscription-based plans via PayPal, Stripe, and RazorPay. I completed this project in two sets i.e. frontend of one in Vue, Inertia, and Tailwind while of the other in Blade and Bootstrap while Backends of both the aforementioned were developed in Laravel.

GigToDo

October 2023 - December 2023 (Laravel, Vue, Blade, Bootstrap, and Tailwind CSS)

This website is a clone of Fiverr, providing facilities of chat, notifications, wallet system, and payment systems i.e. PayPal, Stripe etc., making it a suitable environment for services providers and tentative purchasers thereof.

Jackom

AUGUST 2022 - PRESENT (Laravel, Vue, Tailwind CSS, Ajax, and Stripe)

In this project, I solely worked out the front end of this app, named Jackom, with Vue JS and its backend with Laravel. This app provides for the sale, repairing, maintenance, home delivery etc. of vehicles and other procedures ancillary to the aforementioned tasks like payments, customer care, and chat.

R.I.Q.S.

A 2022- SEPTEMBER 2022 (Laravel, Vue, and Tailwind CSS)

It was the database of an educational institute, based in Lahore, named Rahimia Institute of Quranic Sciences. We worked on this database, which included the data of all its members across the state, classes' schedules, class's reports, etc. I did this project in the collaboration with PureCodes, a software company based in Peshawar.
